Washington, Nov. 15. There seems to be a hitch in the proposed United States mediation in the Chinese-Japanese war. It is under stood that no notification has yet been received from Japan of the acceptance | The Master Workman Advises Consolidaof the United States officer of mediation, though that proposition was cabled to Minister Dun, to be presented to the government at Tokio on Nov. 6. China, to whom, through Minister Denby, the same proposition was made on the same day, is said to have given a reluctant assent, as it is understood; hamperd by conditions which do not seem to have been complied with.

Frequent interviews have been had within the past few days between Secretary Gresham and the Chinese and Japanese ministers, but whatever may have been accomplished by these conferences, it is quite clear today that no agreement has been arrived at which contemplates a suspension of hostilities on the part of Japan, and no such agreement would seem to be immediately in prospect. SOVEREIGN'S ADDRESS.

tion of Labor Organizations and Advocates the Abolition of Militia.

By the United Press. New Orleans, Nov. 15.-Immediately after the opening of the afternoon session of the Knights of Labor, Grand Master Workman Sovereign delivered his annual address, which was an exhaustive and elaborate review of the work of the order from its incipiency.

He attributed the decrease in the membership of the order to the depression in business circles, prevalent bankruptcy, low wages and enforced idleness of the laboring class.

He reviewed his action of last January, when he secured the services of Judge Cole and filed a bill in the district court of the District of Columbia, setting forth special grievances of his order and protesting against the issuance of bonds by the secretary of the treasury. He characterized the writ of injunction from the United States Circuit court for the Eastern district of Wisconsin as a "despotic injunction."

Referring to the American Rallway union affiliation, Mr. Sovereign advised a consolidation with this as well as with other labor organizations. His review of the Pullman strike terminated in a severe criticism of Major General Schofield and the recommendations of that officer for an increase of the army together with the action of "Chicago's millionaire aristocracy who were permitted to present a stand of colors to the Fifteenth infantry," which he said was an indication of an "uneasy desire to subjugate labor through the mili-

tary powers of the nation." He urged that the assembly take strong grounds against an increase of Gold Hill from destruction. the military forces of the nation and they "advocate a decrease in the regular army and the abolition of the state militia, for from them are coming to the surface the sentiments of a millitary despotism."

tidewater prices may be in harmony. Thomas Green, secretary of the Individual Operators' association, asserted that in case the price of coal at tidewater points becomes so low that it precludes the possibility of a fair profit to the producers, that Coxe Bros. & Co. will in future give to the manufacturers cite coal at all points the benefit of New York tidewater prices, and will hereafter quote for shipments to interior and line points the same prices at the freight.

The individual anthracife coal opergtors think this policy will bring the coal carrying corporations to a realizing sense of their obligations to other producers, and that, at least, it will prevent the commercial iniquity of foreing a dealer in an interior town to pay 50 cents per ton for the same quality and the same quantity of anthracite coal, more than a dealer in a seaport town has to pay, simply because the interior dealer is not protected by tidewater point argument. Mr. Green further said that the enforcement of such a policy as contemplated by the individual operators would, in a single year, make a difference of ten million dollars in the receipts of the coal carrying and owners' corporation.
